BUILD YOUR HOME, YOUR WAY, YOU SAVE

Panelized Log Home

Full Custom 2-Story

Standard 2-Story plan

Standard Ranch Plan

Thank you for your recent interest in building through Sales Associates of WNY, LLC. We have been an independent supplier of innovative panelized home systems for over 19 years. Our customers have constructed more than 220 homes in seven counties throughout Western New York.

Through our recommended subcontractors you can build your home from start to finish with little or no involvement, or you may choose to hire some or all of your own subcontractors. For the true do-it-yourself project, please ask about a package program and save thousands! Our unique flexibility puts **you** in control, ensuring superb results.

The www.OehlerHomes.com website has many plans from which to

choose and all can be customized to meet your needs. Financing is available to qualified buyers through an associated lender.

Our **Direct Advantage Program** allows you to choose your own material suppliers (paint, flooring, lighting fixtures, etc.) without any markup that can potentially shave thousands off your project. We don't force you to use our "preferred" suppliers.

We've also added a new line of log homes that includes the *Economy Log*, *Panelized Log*, and *Traditional Log* styles. The *Traditional Log* is a full log home which is a spectacular finished product.

Our standard construction has always included 2"x6" exterior walls which offer increased space for insulation (lower heating bills)

and more importantly a stronger built home. This is a wise choice when building in our northern climate.

To better serve you, our valued customer, we have expanded our Southtowns territory. In addition to our original service area, we've added the Southern Tier and the Northtowns.

If your goal is a new home that is cost effective and energy efficient, you simply must call us to discuss your project. We also offer licensed realtor services through Bev Oehler so we can help you find that perfect piece of land, or list your current home. We are your one-stop source for your new home project.
